

MAKING OUR COMMUNITIES GREAT PLACES TO GROW UP AND GROW OLD

Tufts Health Plan Foundation collaborates with older adults, civic leaders and nonprofit organizations to build and support age-friendly communities. We are living our mission as a trusted community investor and leader in the movement to create communities that work for people of all ages.

HOW WE WORK

We are experiencing a major demographic shift in our communities.

New England is now, and will continue to be, older than the U.S. as a whole.

By 2030, more than one-quarter of New England residents will be 60 years or older.

OUR FORMULA FOR IMPACT
